IAP2 NSW - Playback Theatre: Engaging, Entertaining, Unforgettable

Join IAP2 members, friends and Playback Theatre Sydney for a night of laughter, surprises and exploration as we use theatre to gain an alternate perspective on the challenges and successes for engagement and consultation practitioners.

Playback Theatre Sydney takes stories and improvisation and creates dynamic and entertaining theatre using drama, music and movement. Playback Theatre draws on the tradition of oral storytelling by inviting the audience to tell their own stories and then watch as they are instantly 'played back' onstage.

Playback can be used as an innovative engagement tool, helping groups to explore issues and bring people together by capturing personal stories and opening communication channels.

Come, see and enjoy Playback Theatre for yourself and enjoy an unforgettable evening with IAP2.
